

 10:30 - 12:30

Session 10: Requirements Engineering

 REMPART 3

#58 Kinematic Feasibility Evaluation of Robot Requirements

Jeshwitha Jesus Raja and Marian Daun

#36 A Unified Security Requirements Catalog for the Industrial IoT

Linda Kölbel, Leo Poss and Stefan Schönig

#82 ConsentML: A Modelling Language for Dynamic Consent Modelling

Samuel Daniels and Haralambos Mouratidis

#60 Requirements Engineering Challenges in Developing Machine Learning Systems for Medical Imaging in Hospitals

Amanda Garde Vallentin, Natascha Rylander Bech and Elda Paja

 10:30 - 12:30

Session 11: Secure and Optimized Critical Systems

 R108

#89 Mitigating Cognitive Burden in Water Network Management with LLM-based Conversational Agents

Lucia Arnau Muñoz, António Amaro Costa Vieira, José Vicente Berná Martínez and Maribel Yasmina Santos

#90 Multi-stage method for detecting and characterising incidents in critical infrastructures

David Saavedra Pastor, António Amaro Costa Vieira, José Vicente Berná Martínez and Maribel Yasmina Santos

#88 Alignment of endogenous and exogenous data sources for Context-Aware Optimised Control

José Vicente Berná Martínez, Carlos Calatayud Asensi, Lucia Arnau Muñoz, David Saavedra Pastor and Cinthia Paola Pascual Caceres

#117 Towards an Ontology for Security Management Knowledge Sharing in Manufacturing-as-a-Service

Jānis Grabis, Kaspars Ābelnīca, Rūta Pirta and Giacomo Leopizzi
